CLAIMS AMERICANS HELD IN CONTEMPT BY THE MEXICANS

Former Manager Bank of London in Mexico City Testifies Before Probers.

Others Tell of Outrages Committed by Mexicans Who are Never Punished.

Washington, July 23.—(Associated Press)—Wm. B. Mitchell, former manager of the Bank of London in Mexico City, told the House Rules Committee today that the sending of two American military expeditions into Mexico and their subsequent withdrawal was largely responsible for the anti-American feeling in the southern republic. The Committee is considering a resolution authorizing the investigation of the relations between the two countries.

Mr. Mitchell when questioned stated that the feeling of the Mexicans was almost contempt for America.

Americans are not being treated with the same consideration as other foreigners, he said, adding that Henry T. Fletcher, the American Ambassador, was openly insulted in the streets of Mexico City while enroute to attend the inauguration of President Carranza, while the German ambassador was cheered.

Mrs. John W. Correll, of Ada, Oklahoma, whose husband was killed near Tampico recently by a band of Mexicans who also maltreated her and fired at her son, told the Committee that no effort was made by the Mexican Government to apprehend the murderers.

Mrs. Correll's son Joseph testified that the band who attacked his parents was composed of 50 men commanded by a German.

The man killed last night was Isaac Halbfinger and the seriously wounded man was Benjamin Belmont, both members of the defense guard and who were shot down by negroes while doing duty in one of the black districts.

Two thousand heavily armed soldiers were on duty with 700 police and several hundred home defense guards last night and will continue on duty tonight.

PROVISIONS OF NEW DRY LAW

WASHINGTON, JULY 23.—The prohibition enforcement bill, as it was passed yesterday by the House, provides:

After January 26, 1920:

Every person permitted under the law to have liquor in his possession shall report the quantity and nature to the Commissioners of Internal Revenue. (This applies to chemists, physicians, etc.)

After February 1, 1920:

The possession of liquor, other than as authorized by the law, shall be prima facie evidence that it is being kept for sale or otherwise in violation of the law.

It will not be required, however, to report, and it will not be illegal to have in one's possession, liquor in a private dwelling while the same is occupied and used by the possessor as his private dwelling and the liquor is used for personal consumption by the owner, his family or his guests.

The possessor of such liquors, however, bears the burden of proof that the liquor was acquired and is possessed lawfully.

Intoxicating liquor is defined as a beverage containing more than one half per cent of alcohol.

Any house, boat, vehicle or other place where liquor is manufactured or sold, is declared to be a nuisance.

No person shall manufacture, sell, barter, give away, transport, import, export, deliver, furnish or receive intoxicating liquors.

Liquor for nonbeverage purposes, and wine for sacramental use may be sold under specified regulations.

Denatured alcohol, medicinal preparations (including patent medicines) unfit for beverage purposes, toilet articles, flavoring extracts and vinegar are exempted.

Registered physicians are authorized to issue prescriptions under strict regulations for the use of liquor in cases where it may be considered to be necessary as a medicine.

Liquor advertisements of all kinds are prohibited.

Sale, manufacture or distribution of compounds intended for use in the unlawful manufacture of liquor is prohibited, together with the sale or publication of receipts for home manufacture.

Senators Understand Shantung Settlement Not Proposed by Chief Executive.

(By Associated Press)

Washington, July 23.—Conferences with republican senators on the peace treaty and the League of Nations covenant were continued today by President Wilson. Senators on the visiting list were Page, of Vermont, Sterling, of South Dakota, McLean, Connecticut, and Newberry, Michigan.

Mr. Wilson's condition continued to improve today, and it was expected that within a few days he would have entirely recovered from the effects of an attack of intestinal trouble.

Inquiry at the White House today concerning published reports that the Shantung provisions of the peacetreaty was President Wilson's personal solution of the problem brought neither confirmation nor denial, and the only statement was that no comment would be made.

Senators who have discussed the provision with the President stated that they had not been given to understand that the President proposed the Shantung provision as a solution of the problem, but that he had found himself unable to convert the Japanese delegates to any other view.

You, Mr. Car Owner, are more interested in the above declaration than you would be if we stated it in more embellished language. Whether it is "genuine" this or "genuine" that doesn't interest you half so much as the miles per gallon you get; and you care little from what part of the country it comes, so long as it is "good for your motor" and healthful for your purse. Liberty Gasoline is "genuine gasoline", and that's all, excepting that it gives you more miles per gallon with greater satisfaction.

**SAYS BOUNDARY
DUE TO MISTAKE
MADE BY WRITER**

Berlin, June 30.—(Correspondence of The Associated Press).—The Boersen Zeitung asserts that West Prussia was ceded to Poland by the Peace Conference because of "a mistaken and incorrect scientific book published in 1917 by the American Geographical Society containing an article entitled 'The boundaries of language and nationality,' by Leon Dominian." The German newspaper avers that President Wilson was influenced by the "innocently false information" of this article which, it says, declared that Dantzig was ten percent Polish and that the present Polish corridor and neighboring East Prussia was purely Polish.

The Boersen Zeitung declares that, on the contrary, Dantzig is less than five percent Polish. The newspaper disputes the Polish character of the corridor. It declares that it is certain that the article referred to was used in fixing the boundaries.

There were nearly 4,000,000 children in the elementary schools of Italy under 12 years of age in 1916, the report shows.

Congress Stand Up

The House of Congress on Monday voted through, with one exception, the prohibition enforcement bill, section by section, as outlined by the dry forces.

The fact that the enforcement bill contained "drastic provisions"—had teeth and claws which would make of prohibition a reality and forbid its conversion, in certain sections, into a joke seemed to please rather than to offend the members of the House.

In only one particular did the representatives turn aside from the path marked out by the dry adherents. They refused absolutely to provide for disturbing the "sanctity" of the home.

Adhering closely to the principles underlying the old maxim "a man's home is his castle," the House of Congress goes one step further and gives him authority to convert that castle into a warehouse if he so desires.

The people will welcome the prompt and vigorous action of the House as an indication that the legislative branch means business.

That very pronounced indication may act as a reminder to all the executive and judicial officers, great and humble, throughout the land that they, too, can now be active in their efforts to make the nation dry.

It is good to see Congress standing squarely up to the issue and putting through the necessary legislation.

Hints of Autumn

Although the wheat is not all threshed yet, perhaps even the greater part of the wheat crop remains yet to be threshed, and while we are wishing for and, hereabouts, getting growing weather for the corn, nevertheless there is a hint of autumn's approach in the air.

There is a very marked tinge of blue haze in the atmosphere in these latter days of July. When the weeds are cut down in the fields and along the roadside they are a longer time in making their appearance again. The lawns do not require as frequent mowing as they demand in May and June and even in the earlier weeks of July.

The approach of August is heralded by the myriads of white butterflies which swarm from the roadside pools or from out the denser vegetation at sunset when something disturbs them.

Then too there is the lazy drifting of the smoke which in a very short distance melts into and is lost in the haze of the sky.

While of course it is a long way from Autumn, as the seasons are measured, it will not be long now until the strident noises of the Katydids rasp forth on the evening air their prophecy of frost in six weeks.

Each year as we grow older the seasons seem to come and go more rapidly. It seems long enough, generally, from harvest time to growing time again, but the days and the weeks fly by an ever increasing speed when nature is at work with her building up process.

There is glory and life in it all through. Each season brings its work and its worries but, also, its abundance of joy and reward.

Dollar Day

The merchants of Washington have designated Tuesday, July 29th as "dollar day."

For some time now practically every business man in Washington has been rearranging, rejuvenating and supplementing his stock of goods with the purpose of presenting exceptional buying opportunities available on that day only.

The designated day—"dollar day"—this year is coincident with a number of July clearance sales which many merchants are conducting as they do almost every year in normal times. That coincidence in sales, of course, results in greater advantage to the buying public.

But this dollar day which the Washington merchants have designated for July 29th should not be understood as a movement bringing direct advantage in sales made, that day.

In fact the dollar day is not so intended. Exceptional bargains are arranged for and offered that day, not for direct profit, not for clearing up purposes even. The profit is more indirect and comes in the closer acquaintanceship with the immediate tributary trade and the broadening of the circle of action so as to add buying territory and customers to the local business. It is "an altogether" move largely to attract strangers as well as to forge more firmly the attachments of the present patronage and local merchants. The last-mentioned believing that for one day, for that purpose, the remarkable offerings will, in the future bring their return in profit-sharing trade during the regular shopping seasons.

It's a real twentieth century move to broaden the sphere of influence—a community affair.

POETRY FOR TODAY

GOOD NIGHT.

Sleep sweet within this quiet room
O friend, who're thou art;
And let no mournful yesterdays
Disturb thy peaceful heart;
Nor let tomorrow scare thy rest
With dreams of coming ill.Thy Maker is thy changless Friend,
His love surrounds thee still,
Forget thyself with all thy woes,
Put out each feverish light;
The stars are watching over head—
Sleep sweet, good night, good night.

Of distinctive interest and pleasure that is indelibly red lettered in the Craig family calendar was a family dinner held at the home of Mr. T. H. Craig, Tuesday night.

It was the first time in over two years that the grandparents, Mr. and Mrs. Eli Craig, the sons, Messrs. T. H. and D. S. Craig, and the children and grandchildren had been together and there was added rejoicing in the memory of the shadows of those two years, now lifted by the release of five of the grandsons from military service.

The dinner also honored the sixty-first wedding anniversary of Mr. and Mrs. Eli Craig, the celebration of its occurrence on June the 17th postponed until all these grandsons had reached home.

There were nineteen present, including three greatgrandchildren and every detail contributed to the joyousness of the occasion.

The home, fresh from the hands of the decorators, and handsomely remodeled and refurnished, provided rarely effective settings and delighted the eye as much as the elaborate and perfectly served dinner courses delighted the palate. In the decorations a yellow and green color scheme was most artistically carried out in baskets of garden flowers and pretty place cards.

Congratulations and best wishes to the beloved grandparents, the interest of the reunion with the multiple experiences of the boys while in service and the congenitally which binds doubly close the ties of the Craig family, formed coalition to make the occasion unforgettable.

Seated at the table with the honor guests and Mr. T. H. Craig, daughter

Miss Mary, sons Winchell, Harold and Robert, were: Mr. and Mrs. D. S. Craig, sons Maynard, Paul and David, Mr. and Mrs. Walter Craig, sons Thomas and Eli, Mr. and Mrs. Clarence Craig and son Andrew.

The Tuesday Duplicate Auction Bridge club punctuated a delightful club season with their annual luncheon—always an anticipated event—on Tuesday at one o'clock.

Mrs. Ada Jones hospitably threw open her home for the luncheon, which was one of exceptional loveliness and perfection of appointment.

Covers were laid for the eight members of the club and the table, with beautiful cluney luncheon set and decorations of La France roses and fern, aroused the unstinted admiration of the guests. The place cards were daintily hand painted.

Four courses of the season's delicacies were served, Mrs. Jones assisted in the hospitalities by her sister, Mrs. Eliza Waddell.

Mrs. Clarence S. Frazer, of West Church street, invited a small company of friends for Tuesday afternoon to meet her house guest, Miss Helen Cork, of Toronto, Can. The guests took their sewing, and enjoyed the afternoon in the cool pleasant rooms. Garden flowers decked the house and porch. Cooling refreshments were served.—Xenia Gazette.

French brides of American soldiers on their way from France to their new homes in America are entertained in Hostess House at St. Nazaire until they and their husbands are ready to go on board steamer. Thus far 81 of these newly made American wives have been taken care of in this temporary home for brides.

The work of caring for them is conducted by the Young Women's Christian Association.

The wives, many of whom had never been more than 20 miles from their homes before, are met at the station with an automobile and taken to the Hostess House, where they are given a thorough physical inspection, teeth examined, and any necessary work to be done on them is then done. After this they are given the opportunity to bathe, change their clothing and are assigned to a bed in one of the spick and span dormitories. Their life from then on until the time they board the boat is chiefly occupied in learning the English language, sewing and exercises and recreation of various kinds in the mornings and with their husbands in the afternoons.

Assisting in the tea room were Misses Isabelle O'Neal, Eleanore Jones, Ruth Hagler, Eleanor McClain and Jane Lampe. Miss Jean Fitzgerald of Columbus and Miss Helen Buckley, of Holyoke, Mass., were out of town guests.

A plenteous supply of picnic eats were eagerly devoured with regulation picnic appetites and the usual out of door stunts provided lots of fun. The crowd was chaperoned by Rev. and Mrs. J. V. Stone.—Chillcothe News Advertiser.

Mrs. Neille Warnecke entertained at her home on the Bogus road Tuesday with a most delightful family dinner in honor of her father-in-law, Mr. John Warnecke, who celebrated his 88th birthday.

Mr. Warnecke has been one of Washington's highly respected citizens throughout a long and useful life and many friends in town and county share in the heartsome congratulations of his birthday dinner and hope he will attain his hundred milestone in similar health and happiness.

The dinner was entirely a family affair—covers laid for ten and an elaborate menu served. Victrola music added pleasure to the occasion.

A tea of "buds" and summer bloom given Tuesday afternoon by Mrs. H. G. Coffman in compliment to her pretty young guest Miss Eva Van Winkle of Cincinnati, was one of the most charming affairs of the midsummer season.

Mrs. Coffman, always a perfect hostess, received in a smart braided gown of white georgette.

Miss Van Winkle was very attractive in pink organdie, with ruffled skirt.

Forty-six of the younger society and High School sets responded to the invitations and enjoyed the opportunity of meeting the honor guest as well as the charm of the hospitality extended.

Throughout the rooms pink sweet peas arranged in baskets were strikingly effective and on the prettily appointed tea table was an exquisit basket of deep pink roses and greenery. The pink and green color scheme was carried out in the delicacies of the tea table.

Assisting in the tea room were Misses Isabelle O'Neal, Eleanore Jones, Ruth Hagler, Eleanor McClain and Jane Lampe. Miss Jean Fitzgerald of Columbus and Miss Helen Buckley, of Holyoke, Mass., were out of town guests.

Overland Model 90 Touring Car

Venturesome Trip

Not unlike their adventuresome ancestors, the Vikings of old who roved the seas centuries ago, Thure, Emil and David Styrlund, three youths of Viking, Minn., have just completed a land voyage covering more than half the United States.

The tour was made in an Overland Model 90 touring car, the model which recently established a new world's record for a seven-day non-stop, sealed-in, high-gear run at Oklahoma City. Throughout almost the entire journey of approximately 15,000 miles the Model 90 pulled a trailer, as big as the car itself, loaded with camping outfit and tools.

During the entire trip they were not compelled to change spark plugs with which the car was equipped at the factory, the original plugs still giving efficient service. They estimate that the car averaged 15 miles to the gallon of gasoline with the trailer and 22 miles without, which is considered remarkable in view of the desert and mountain roads over which they passed.

The Overland factory is now working a full force of over 20,000 men, and will soon be making delivery of all styles of cars.

Debate Comes Unexpectedly

(By Associated Press)

Washington, July 23.—Renewed charges that the big meat packers were engaged in propaganda for defeat of pending legislation for regulation of their industry caused a lively debate today in the Senate.

Senator Kenyon of Iowa, author of the regulation, again asserted the packers were stimulating propaganda against the bill, while Senator Smoot of Utah, declared the National Wholesale Grocers' Association was just as active in propaganda in its support.

Several other senators argued the question back and forth and opinions were voiced that both sides were spreading much propaganda.

A Heap of Money

A HEALTHY growing crop is a hungry crop. Underfeeding the crops has killed more farm prosperity than any other one thing. You've got to keep your crop on full rations—on a steady manure diet.

Uncle Sam has it all figured out. Farmers waste a billion dollars' worth of fertility every year. The pay-dirt of the farm is being thrown to the four winds.

The Low Corn King is fighting this waste—tooth, beater, and spiral. It is the handiest, cleanest built, most efficient time and money saver ever built for bumper crop insurance.

There's high efficiency in every move. The manure is pulverized and evenly spread—not a lump so hard as to escape the double tearing it gets. Three rows of corn are top dressed at a time.

There are scores of fine, exclusive features that we want to tell you about—want to "show you"—so that you can understand our enthusiasm. You have a gold mine in that manure pile, and the Low Corn King always uncovers the pay streak.

CITY PROPERTIES CHANGING HANDS

There has been a notable acceleration in realty transfers in Washington C. H. recently, among them the following list submitted for publication:

The modern home on South Fayette street owned by Mrs. Mada Hughey has been purchased by Mr. and Mrs. J. W. Arnott, who will soon move into their new home, having sold their farm on the Greenfield pike.

R. W. Manley has purchased the Emily Bell property on East Rawlings street and the Pummell home on East Temple street has been sold to Myrl McCann.

Another property, the Margaret Ott dwelling on the corner of Paint and Hyde streets has been bought by Mrs. Mary Patton. All of the above deals were closed through the firm of Hitchcock & Dalbey.

HIGH DECORATION AWARDED YOUNG

For conspicuous bravery displayed in action, Sergeant Max M. Young, of Mt. Sterling, has been awarded the Medaille Militaire by the French government.

Sergeant Youn carried a wounded comrade across a bridge while exposed to the fire of the enemy and when a shell fell in his party he rendered first aid under heavy fire from the enemy guns. He also refused to report to a field hospital when ordered by his captain and remained at the front.

The decoration is one of the highest bestowed by the French.

PREPARING FOR OPENING PLANT

Preliminary steps toward preparing the two story brick structure opposite the Washington Milling Company's plant on South Fayette street for the newly organized J. W. Duffel Manufacturing Company, started this week, and it is expected that within the next three weeks the concern will be in operation and the actual manufacture of various products will be started.

The incorporation papers have been obtained, it is announced, and the manufacturing end of the business is expected to grow rapidly.

PARTS MISSING WORK DELAYED

After the Studebaker street flusher was unloaded in this city Tuesday it was discovered that the spark plugs and the magneto were missing, having either been stolen from a box on the side of the flusher or, by an oversight, had not been shipped with the flusher.

The missing parts were sent for immediately and their arrival from South Bend is expected Thursday.

A delay of two or three days has thus been incurred in the flushing of the streets.

WHY THEY'RE HIGH

Columbus buyers came to Chillicothe Saturday and Sunday and went into blackberry patches where they offered pickers \$6 a bushel for berries. In Columbus, and all through the central part of the state blackberries are very scarce, and buyers are willing to go almost any lengths to get them.—Chillicothe News.

The Democrats also promised to reduce the cost of living.

FARM DEAL

The Steve Garringer farm, six miles north west of this city between the Prairie pike and the Hays road, has been sold to D. B. Russell, of Sabina. The farm contains 101 acres and the sale price was \$200 an acre. The transaction was completed through the agency of Chas. Gerstner.

TOM TOO MUCH FOR WRESTLER WITH CARNIVAL

"Ten dollars if you stay with him ten minutes" was the challenge offered by a wrestler who is traveling with the street carnival now in this city.

The wrestler was brown and muscular and weighed somewhere around 165 pounds, but that did not make any difference to young "Tommy" Hillery of this city, who promptly accepted the challenge.

Surprise and amazement spread over the face of the challenger when he saw the local "young giant" stripped for action. And a still greater surprise came to him when he attempted to put even a single hold on the muscular local boy. Tom was not content with merely "staying with him" and applied toe-holds and wrist-locks and almost every thing else in his line in rapid succession upon the surprised opponent.

When the ten minutes had passed the carnival wrestler was thoroughly tamed and declared that Tom was the biggest boy that he had ever tackled.

"Pretty easy ten bones," said Tom as he pocketed the money.

It is thought that the carnival wrestler would not be so surprised if some one would inform him of the fact that Tom had been given a few points of the game by Matty Matsuda, the gifted Jap wrestler.

STAMPED ENVELOPES CAN BE REDEEMED

Many patrons of the local post office found themselves in possession of unused three-cent envelopes and two-cent postal cards when the reduction in postage became effective July 1, 1919.

In order to prevent any loss to the purchaser, the Post Office Department has issued instructions that during the month of July, all unused and undamaged three-cent envelopes and two-cent postal cards are exchangeable at the post office at their full purchase value. After July 31st, envelopes will be redeemed at their postage value and postal cards at three-fourths face value.

Postmaster Murry is anxious that all of the patrons of the local office avail themselves of this offer to exchange their cards and envelopes during July and urges everybody to present these at the post office before the expiration of the month.

Loose three-cent stamps cannot be redeemed from the public, but can be used in mailing packages and newspapers.

Strength

WOMEN NEED STRENGTH to meet the stress of life during these troublous times. Worry, anxiety or sorrow undermine strength and health. To be strong and well, an organization of body must perform the functions assigned to them by nature.

Mrs. J. D. Miller, Syracuse, N. Y., writes: "For many years I had on and off rheumatism and rheumatoid arthritis, and I got too tired to do anything. I bought some Folic Kidney Pills and after taking two bottles I feel my backache is gone, and when I get up in the morning I am not stiff. I eat a hearty breakfast and enjoy a good night's rest. Folic Kidney Pills did wonderful things for me. I recommend them."

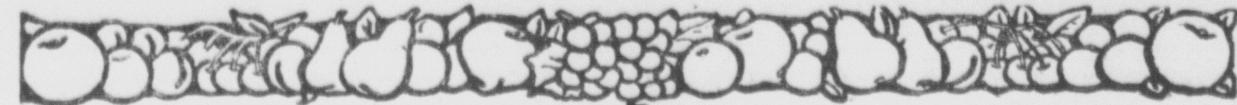

Mail orders promptly filled.

Were you ever disappointed with your Home-made Preserves?

Even the best recipe can't make allowances for the way sugar will harden into candy—or for the failure of a jelly to "jell".

Thousands of women are finding the ideal preserving syrup is a blend of $\frac{1}{2}$ Karo (Red Label) with $\frac{1}{2}$ sugar—instead of all sugar. Preserving done this way is always uniform—jelly that really "jells"—jam that is neither too syrupy nor too thick.

It gives you preserves with the natural fresh fruit flavor.

This fine, clear Karo Syrup has a natural affinity for the juices of the fruit. It blends the fruit with the sugar—makes your syrup rich and heavy, and holds jams and jellies firm and mellow, with not the slightest tendency to "candy" in the glass.

For Cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.
